

I have been told that this proceeding could weaken the Indiana law that reduces phone solicitation. I am currently on the Indiana list and it has drasitcally reduced the phone solicitation that was having a negative effect on our lives. Before we were on the Indiana list we were interrupted several times a night be phone solicitation. Now that we are on the Indiana list we are not receiving any of these unwanted phone calls. Please do not do anything to weaken the Indiana law. The law is effective and needed. Our lives at home have been improved by this law.
